

APPENDIX B-214

DIRECTED MATERIEL RELEASE ORDER (MRO)
(ORIGINATING REFERRAL ORDER)

1. Directed Materiel Release Orders, DIC CQA/CQ1, may be entered off line by the Inventory Control Point (ICP) ESOC as emergency post post MROs when the total referral can be filled from a single DSS storage site, using the DSS directed MRO entry process. The DSS process allows an ICP user to sign on to a DSS storage site to input directed MRO data on line.
2. Upon acceptance of the directed MRO, DSS will generate a post post MRO transaction and route it through DAAS to the applicable ICP.
3. Upon receipt of the post post MRO transaction, the transaction will be processed in SAMMS as a directed post post referral requisition (DIC A4_) for the quantity, Ownership/Purpose Code, Condition, and location identified. The Requisition History Interrogation, appendix F-045, will cite the input DIC CQA or CQ1. No MRO will be generated.
4. The following are the fields in the transaction:

<u>FIELD</u> <u>LEGEND</u>	<u>FIELD</u> <u>POSITIONS</u>	<u>EXPLANATION/INSTRUCTIONS</u>
Document Identifier Code	1-3	DIC CQA for CONUS or CQ1 for OCONUS.
